1 Introduction

SMS GupShup Enterprise Edition Mobile Access document is intended to help Users. It is not intended as a specification book and no rights whatsoever can be derived from it. This manual describes the working of SMS Access functions for SMS GupShup Enterprise Edition. Mobile access will allow you to access your groups through the specified mobile phone(s). You can create new groups too through the specified mobile phone(s).

2 Enabling Mobile Access via Website

To enable mobile access through website:

Log into your account on http://enterprise.smsgupshup.com.

Click Groups tab on the menu bar.

Click on the Group Settings tab for the group for which you want to enable mobile access.

Make a post | Manage Members | Group Settings | Disable Group | Delete Group

Check the Enable Mobile Access option.

Enable Mobile Access
(You will be able to access this group from a list of mobile numbers you specify, using simple SMS commands.)

Note: After enabling mobile access, a successful message is displayed at the top.

Enter the mobile number to which you need to provide access to the group(s). Click on Add button.

Add Mobile Numbers allowed to Access this group						
9988xxxxxx	Add					

Repeat above step to add more numbers. You can up to 7 different mobile numbers.

Click on Save.
